### Section A125

## Private Line Services Tariff

### Section B7

- Seventh Revised Page 16

This tariff is being filed to obsolete Message Rate Service, Measured Rate Service, RegionServ Service, and Morristown Area Calling Plan. With this obsolescence, these services will not be available for new installations, additions, or transfers of service to a new location. These services have been declining in subscribership over the last several years. In fact, from June 1999 until June 2002, a total decline of over 40% has occurred (see attachment).

Service to existing customers will be provided indefinitely. If BellSouth decides to terminate service while existing customers remain, the appropriate tariffs will be filed for the approval of the Tennessee Regulatory Authority and at least 60 days notice will be provided to existing customers.

We appreciate your returning a receipted copy as evidence of this tariff filing. Please call Jim Gotto at 214-3815 if you have any questions or wish to discuss.

Yours truly,

## A2. GENERAL REGULATIONS

### A2.1 Application

#### A2.1.1 General Applications

The regulations specified herein are applicable to all communication services offered in this Tariff by South Central Bell Telephone Company, hereinafter referred to as the Company. Additional regulations, where applicable, pertaining to specific service offerings accompany such offerings in various sections of this Tariff.

### A2.2 Limitations And Use Of Service

#### A2.2.1 Use Of Subscriber's Services

##### A. Restricted To Authorized Users

The use of telephone facilities is restricted to the subscriber and his authorized users, i.e., the subscriber's employees, agents or representatives, and members of the subscriber's domestic establishment except as follows:

##### 1. Exceptions to authorized users:

- a. Joint Users (T)
- b. Apartment House transient guests where the apartment house subscribes to measured or message rate service<sup>1</sup> (T)
- c. Guests and patrons of hotels subscribing to message or measured rate service<sup>1</sup> (T)
- d. Patients of hospitals (T)
- e. Members of clubs (T)
- f. Students living in quarters furnished by schools, colleges or universities (T)
- g. Transient public in connection with use of reservation service at airport terminals (T)
- h. Persons temporarily subleasing a subscriber's residential premises (T)

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

## A2. GENERAL REGULATIONS

### A2.2 Limitations And Use Of Service (Cont'd)

#### A2.2.1 Use Of Subscriber's Services (Cont'd)

##### A. (Cont'd)

##### 1. Exceptions to authorized users: (Cont'd)

- i. Users of access line service for customer provided public telephones (T)
- j. Sharing and Resale of Basic Local Exchange Service Subscribers as specified in Section A27. of this Tariff. (T)
- k. Traffic Reports as described in A32.1.4.B. may be requested for use by Enhanced Service Providers (ESPs) and Customer Premise Equipment (CPE) vendors when utilized for evaluation and engineering purposes and not provided to the end user. When a Traffic Report is requested by an ESP or CPE vendor, a study time will be determined based on availability of equipment utilized for this offering. The offering is provided on a per-report basis and will consist of a one-week analysis of the customer's central office based facilities. These reports vary based on central office types and equipment availability. (T)

##### B. Limitations on Resale of Local Service

Service is intended only for communications in which the subscriber has a direct interest. Except as noted following, the service shall not be used for any purpose for which payment or other compensation shall be received by him from any other person, firm or corporation and the service shall not be used in the collection, transmission or delivery of any communication for others.

##### 1. Exceptions to Limitations on Resale of Local Service

- a. This limitation shall not apply to a subscriber who is an authorized communications common carrier engaged in the public telegram message business, overseas data message service, or one who engages in the radio common carrier business, authorized cellular mobile service business, or regulated mobile telephone service business, or radio paging business.
- b. Excepted also are subscribers to access line service for customer provided public telephones.
- c. Excepted also are users of business measured rate service<sup>1</sup> at hotels, motels, hospitals, and joint tenants subscribing to a reseller's service. Also message rate service<sup>1</sup> users at hotels, motels and hospitals that existed prior to July 1, 1988, are also excepted. (T)
- d. Excepted also are Sharing and Resale of Basic Local Exchange Service as specified in Section A27. of this Tariff.
- e. Excepted also are Enhanced Service Providers in the provision of Enhanced Service to their patrons.

##### C. Subscribers who desire to provide access arrangements for the exclusive use of inmates served within the confines of penal, correctional, or mental institutions shall do so as specified in Section A7. of this Tariff.

##### D. In view of the fact that the subscriber has exclusive control of his communications over the facilities furnished him by the Company, and of the uses for which facilities may be furnished him by the Company, and because of unavoidableness of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.

##### E. No subscriber may use any service listed in any part of this General Subscriber Services Tariff, including but not limited to such call management features as the various call forwarding features, conferencing and bridging capabilities, for the purpose of allowing the subscriber or any other telephone user to avoid usage, message or toll charges, whether flat rated or usage based, that would otherwise be applicable.

#### A2.2.2 Establishment Of Identity

- A. The calling party shall establish his identity in the course of any communication as often as may be necessary.
- B. The calling party shall be solely responsible for establishing the identity of the person or station with whom connection is made at the called location.

#### A2.2.3 Customer-Provided Terminal Equipment And Communications Systems

Customer-provided terminal equipment may be used and customer-provided communications systems may be connected with the facilities furnished by the Company for telecommunications services as provided in Section A15.

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(N)

## A2. GENERAL REGULATIONS

### A2.3 Establishment And Furnishing Of Service

#### A2.3.1 Availability Of Facilities

- A. The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the provision of such service.
- B. The rates and charges quoted in this Tariff provide for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive costs.
- C. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in Section A5. except as otherwise specified.
- D. Company representatives will explain the availability of all individual line Basic Local Exchange Service options when customers call the Company's business office requesting new service or change in their Basic Local Exchange Service.

#### A2.3.2 Flat, Measured And Message Rate Service<sup>1</sup>

- A. When Flat, Measured, Message or RegionServ Rate Service is offered in an exchange, an applicant may, at his option, select either type of service or combination of services for the applicant's private residence location.

An applicant at a business location may select either Flat, Measured, Message or RegionServ Rate Service when they are available in the exchange. However, a combination of these different types of services will not be furnished to the same subscriber at the same business location. Different applicants at the same business location, even in the same office, may each subscribe to a different type of service as long as each applicant has a different account and the applicants do not share a communication or other key-type system. The exceptions to the mixing restrictions for business locations are listed following:

1. To existing hotel subscribers as of July 1, 1988, where Flat Rate Service may be furnished for the exclusive use of the hotel management, in addition to the Measured, Message or RegionServ Rate Service ordinarily provided in guests' rooms and lobbies. Flat Rate Service may be provided in guests' rooms and lobbies, in lieu of Measured, Message, or RegionServ service, in addition to Flat Rate Service for management use. Guests may also contract separately for the services that may otherwise be available to them. Effective July 1, 1988, new hotel subscribers will not be allowed to combine Flat Rate Service with Message, Measured or RegionServ Rate Service.
2. To existing hospital subscribers as of July 1, 1988, where Flat Rate Service may be furnished for the exclusive use of the hospital management, in addition to the Measured, Message or RegionServ Rate Service ordinarily provided in patients' rooms and lobbies. Flat Rate Service may be provided in patient rooms and lobbies in addition to Flat Rate Service for management use. In addition, patients may also contract separately for the services that may otherwise be available to them.
3. To premises where pay telephones may properly be located;
4. To local telephone lines used for In-Classroom Computer Access Service as described in A3.32, A42.1.2.H and A42.2.2.H of this Tariff;
5. To premises where Back-Up\* Line service may properly be located with flat rate primary line service;
6. To premises where toll terminals are located;
7. To premises where Flat Rate Service is used for voice transmission and usage service is used for transmission of medical information only, for contingency or temporary use during service outages of the main communication system only, for lines to the subscriber's own automatic attendant or voice mail system only, for fax machines only, or for computer data communications only, and the usage lines are not part of the primary voice system at that location. It shall also apply for premises where usage service is used for voice transmission and Flat Rate Service is used for the same purposes stated above;
8. To premises where Flat Rate Service is used for voice transmission and the customer subscribes to a service for which the Company requires usage rated network access such as, but not limited to, MegaLink® service and LightGate® service.

#### A2.3.3 Reserved For Future Use

#### A2.3.4 Reserved For Future Use

**Note 1:** Measured, Message and RegionServ Rate Services are Obsolete October 30, 2002. Tariff Reference, Section A103.

### A3. BASIC LOCAL EXCHANGE SERVICE

#### A3.1 General

- A. Rates for Basic Local Exchange Service are related to the total number of main station lines, PBX trunks, ESSX-1 Main Station lines and Centrex Type Services Main Station lines in the Local Calling Area.
- B. Rate and service areas are identified in Rate and Service Areas, TPSC Tariff B.
- C. The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff.
- D. Individual Residence and Business Main Station Line Service are comprised of serving central office line equipment and all outside plant facilities needed to connect the serving central office with the customer premises at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariffed use offering selected by the customer.
- E. (Obsoleted – See Section A103.)

##### A3.2.10 Complete Choice® Service

###### A. General

1. Complete Choice® service provides the features specified following including a flat rate access line. Touch-Tone Calling service is included in this service at no additional charge.
2. The rate specified herein entitles a residence subscriber to unlimited calling to all exchange access lines in the subscriber's exchange and the Extended Area Service (EAS) additional exchanges in the subscriber's local calling area as defined in A3.6.1. of this Tariff.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the services/features specified in the following sections of this Tariff:

- A13.9 Custom Calling Services
- A13.19 TouchStar® service excluding Calling Number Delivery Blocking-Permanent<sup>1</sup>
- A13.20 Customized Code Restriction
- A13.34 RingMaster® service
- A13.47 Message Waiting Indication
- A113.9 Obsolete Custom Calling Services
- A113.35 Obsolete Visual Director

A12.16.2.A Call Hold and Call Pickup only (PCS limitations do not apply)

A subscriber may select an unlimited number of compatible services or features from the sections listed above. All rules, regulations and limitations specified in the sections listed (except as indicated above) apply to the respective services/features requested as part of this service. Service charges specified in Section A4. of this Tariff do not apply for transactions involving only additions, deletions or changes to the services/features requested as part of this service.

**Note 1:** This feature is available separately as specified in A13.19.

**A3. BASIC LOCAL EXCHANGE SERVICE**

**A3.11 Reserved For Future Use**

**A3.12 Network Access Register Usage Package**

**A3.12.1 General**

The Network Access Register (NAR) Usage Package provides for exchange and long distance message network calling to and from main stations and attendant positions of an ESSX<sup>®</sup> service, Digital ESSX<sup>®</sup> service, MultiServ<sup>®</sup> PLUS service, or BellSouth<sup>®</sup> Centrex service system, or a system requiring trunk or line applications in conjunction with MegaLink<sup>®</sup> channel service, FlexServ<sup>®</sup> service, or LightGate<sup>®</sup> service. The NAR Usage Package provides for Flat *Rate* network usage access. It is used in conjunction with a Network Access Limiter for ESSX<sup>®</sup> service and Digital ESSX<sup>®</sup> service as provided in Section A112. (C)

**A3.12.2 Regulations And Application Of Rates**

- A. The charges listed in A3.12.3 following for the Flat Rate Usage Packages for ESSX<sup>®</sup> service and Digital ESSX<sup>®</sup> service include Grouping Service. The charges listed in A3.12.3 following for the Flat Rate Packages for MultiServ<sup>®</sup> PLUS service and BellSouth<sup>®</sup> Centrex service include Grouping Service. The charges listed for Flat Rate MegaLink<sup>®</sup> channel service, FlexServ<sup>®</sup> service, and LightGate<sup>®</sup> service do not include grouping service. See A3.19.2 for grouping service rates. (C)
- B. The Flat Rate NAR Usage package includes an unlimited number of dialed sent paid local calls.
- C. (Obsoleted, See Section A103.) (M)

Material previously appearing on this page now appears on page(s) 47 of section A103.

GENERAL SUBSCRIBER SERVICES TARIFF

Fifth Revised Page 58.1  
Cancels Fourth Revised Page 58.1  
EFFECTIVE: October 30, 2002

**A3. BASIC LOCAL EXCHANGE SERVICE**

**A3.19 Grouping Service**

This service receives promotional pricing treatment as described in A2.3.26 of this Tariff.

**A3.19.1 General**

Grouping Service is a combination of two or more residence or business lines or trunks connected to the central office so that incoming calls overflow to the next available line or trunk if that line is busy.

**A3.19.2 Rates**

**A. Monthly Rates For Grouping Service**

**1. Individual line or trunk**

These charges apply as indicated herein and apply in addition to the regular individual line rate.

	Monthly Rate	USOC	
(a) Business Flat Rate Line <sup>1</sup>			
Rate Groups 1 – 4 are 75 percent of Business Individual Flat Line Rates.	\$-	HTG	
Rate Group 5	16.90	HTG	
(b) Business Flat Rate NAR - MegaLink <sup>®</sup> channel service, FlexServ <sup>®</sup> service, and LightGate <sup>®</sup> service			
Rate Groups 1 – 4 are 75 percent of Business Flat Rate NAR Usage Package rates.	-	HTG	
Rate Group 5	16.90	HTG	
(c) Business Message <sup>2</sup> or Measured <sup>2</sup> Line or Trunk (75 percent of Business Message <sup>2</sup> Line Rate)	-	HTGMS	(T)
(d) Business Message <sup>2</sup> Rate Trunk (75 percent of Business Message <sup>2</sup> first trunk rates)	-	HTGMS	(T)
<b>Note 1:</b> Rates also apply for Grouping service for BellSouth Business Plus <sup>*</sup> service.			
<b>Note 2:</b> Message and Measured Rate Services are obsolete effective October 30, 2002. See Section A103.			

### A3. BASIC LOCAL EXCHANGE SERVICE

#### A3.19 Grouping Service (Cont'd)

##### A3.19.2 Rates (Cont'd)

##### A. Monthly Rates For Grouping Service (Cont'd)

##### 1. Individual line or trunk (Cont'd)

	Monthly Rate \$-	USOC HTGMS
(e) Exchange lines used with Announcement Facilities (Section A13.) (75 percent of Business Message <sup>1</sup> Line Rate)		
(f) Business RegionServ <sup>1</sup> Line, Trunk, MultiServ <sup>®</sup> PLUS service NAR, BellSouth <sup>®</sup> Centrex service NAR or ESSX <sup>®</sup> service NAR (75 percent of Business RegionServ <sup>1</sup> Line Rate)	-	HTGTR
(g) Residence RegionServ <sup>1</sup> Trunk (75 percent of Residence RegionServ <sup>1</sup> Line Rate)	-	HTGTR
(h) In-Classroom Computer Access Service Line (75 percent of the Business Measured <sup>1</sup> Line Rate) See A3.2.3	-	HTGME
(i) Overflow to Back-Up* Line from each additional non-RegionServ <sup>1</sup> primary line (75 percent of Business Individual Flat Line Rate)	-	BULRX
(j) Overflow to Back-Up* Line from each additional RegionServ <sup>1</sup> primary line or hunt group (75 percent of Business RegionServ <sup>1</sup> Line Rate)	-	BULSX

- B. The Grouping service charge is not applicable to residence non-PBX service or to station lines for Centrex Type Services or Direct-Inward-Dialing (DID) Numbers and/or WATS.

#### A3.20 Trunk Lines

##### A3.20.1 General

Trunk line charges apply to all central office lines terminated in private branch exchange switching equipment, automatic call distributors, a common group of pooled lines connected to customers' equipment and to other services as specifically covered in this Tariff.

##### A3.20.2 Residence

##### A. Trunks

##### 1. Flat Rate both-way only

(a) Each (1 3/4 Res. Ind. Line Flat Rate)	-	TFR
--	---	-----

##### 2. Measured Rate (Obsoleted, See Section A103.)

Note 1: Message, Measured Rate and RegionServ Services are obsolete effective October 30, 2002. (M)(T)  
See Section A103. (C)

### A3. BASIC LOCAL EXCHANGE SERVICE

#### A3.21 Multiline Service (Cont'd) (Obsoleted, See Section A103.)

(M)(T)

#### A3.22 Local Usage Detail (LUD)

##### A3.22.1 General

###### A. Local Usage Detail

Local Usage Detail (LUD) is an option for usage based pricing customers who desire a printed listing of local call details in lieu of the usual summary billing of all dialed sent paid local usage. Requests for LUD must be processed five days prior to the billing date of the month in which it is desired, and must be initiated at the beginning, and terminated at the end of billing periods. In these cases, LUD must remain in place for complete billing periods, except where total service is terminated. LUD may be initiated between billing dates only when requested at the time service is established. LUD is not available for business message rate lines, PBX trunks, Centrex Type Services or offices where message rate service is not generally offered.

When an order is issued solely for the purpose of initiating LUD, a charge equivalent in amount to a Secondary Service Charge A4.3.1.A.1.(c). applies. If LUD is initiated at the same time an order is being issued for any other purpose, the charge preceding does not apply. When an order is issued solely to initiate LUD, no service charges apply for BellSouth Business Plus\* service only.

##### A3.22.2 Rates And Charges

###### A. The following charge applies for LUD:

###### 1. Printed listing

	Charge	USOC
(a) Charge per message listed for services excluding BellSouth Business Plus* service Option 2	\$ .01	NA
(b) Per message listed for BellSouth Business Plus* service Option 2 and Back-Up* Line for BellSouth Business Plus* service Option 2 only	-	NA

Charges for LUD are in addition to other applicable usage charges for local residence and business measured, residence and business RegionServ, or residence message rate service as specified in Section A103.

(M)(T)

LUD will be provided on a per-line basis except when a customer has multiple measured or RegionServ lines on the same service account for combined usage and allowance billing. One LUD listing is furnished for these accounts.

### **A3. BASIC LOCAL EXCHANGE SERVICE**

(M)

#### **A3.23 Reserved For Future Use**

#### **A3.24 Local Directory Assistance Call Completion Service**

##### **A3.24.1 Description of Service**

- A. Local Directory Assistance Call Completion (DACC) is an optional service provided to users of Local Directory Assistance (DA) Service. When dialing (411), Local DA customers may choose to have the telephone number they are requesting dialed by the DA Operator System.
- B. The service is available to Business and Residence customers except as limited in A3.24.4 following.
- C. Individual message detail is not included as a part of this service.
- D. The service is available only where billing and network capability exists.
- E. Customers may request blocking of DACC calls originating from their telephone lines by contacting the local Company business office.

##### **A3.24.2 General Regulations**

- A. The service is not subject to concessions.

##### **A3.24.3 Use of the Service**

- A. The service is furnished subject to all applicable regulations in Section A2. of this Tariff.

##### **A3.24.4 Limitations of Service**

- A. The service is not available for the following classes of service call categories:
  - 1. UniServ DA number requests
  - 2. Any Special Line Class Codes
  - 3. 976 DA number requests
  - 4. Mobile Telephone Users
  - 5. Alternately Billed Calls; e.g., Collect, Calling Card, or Billed to Third Number
  - 6. Any PBX type customer who requires real-time notification of charges, i.e., HOBIC
  - 7. Calls from tandems where the end user cannot be identified
  - 8. Calls from South Central Bell and IPP Coin Stations

##### **A3.24.5 Application of Charges and Exemptions**

- A. The charges specified in A3.24.6 following will be applicable to all subscribers.
- B. Chargeable Calls
  - 1. For charging purposes, a DACC completed call is as defined in Section A1. of this Tariff.

## A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

### A5.6 Contract Service Arrangements (Cont'd)

#### A5.6.1 Rates and Charges (Cont'd)

A. The following is a listing of rates and charges to subscribers requiring contract service arrangements. (Cont'd)

15. Case No. TN96-4460-02

- a. This Contract Service Arrangement provides MultiServ PLUS<sup>\*</sup> service. Rates are stabilized for five years with a five year minimum service period. These rates are available to customers having an equivalent number of lines and loop length served from a DMS-100 central office. Additional terms and conditions that are specific to this contract have been filed as proprietary information with the Tennessee Regulatory Authority and will be made available to interested customers through permission from BellSouth. MultiServ<sup>\*</sup>/MultiServ PLUS<sup>\*</sup> service rates, charges, terms and conditions apply as specified in A12.20 and A12.21 of this Tariff for elements not covered under this Contract Service Arrangement.

(1) Service Establishment

	Nonrecurring Charge	60 Months Monthly Rate	USOC
(a) Per Arrangement	\$650.00	\$ -	N/A
(2) MultiServ PLUS <sup>*</sup> service Station Links, Flat Rate			
(a) Each	-	5.95	M4LFA
(3) MultiServ <sup>*</sup> service, DMS-100 Feature Group, per main station line, Feature Group 2			
(a) Each	-	3.35	M1MD2

16. Case No. TN96-7528-00

- a. This Contract Service Arrangement provides MultiServ PLUS<sup>\*</sup> service. Rates are for a thirty-six month term payment plan with a minimum service period of three years.<sup>1,2,3,4</sup> These rates are available to customers who have an equivalent average loop length. Additional terms and conditions that are specific to this contract have been filed as proprietary information with the Tennessee Regulatory Authority and will be made available to interested customers through permission from BellSouth.

(1) Contract Preparation Charge

	Nonrecurring Charge	36 Months Monthly Rate	USOC	
(a) Per Arrangement	\$200.00	-	N/A	
(2) MultiServ PLUS <sup>*</sup> service Station Links, Measured Rate <sup>5</sup>				(T)
(a) Each	-	\$6.00	M4LRA	
(3) MultiServ PLUS <sup>*</sup> service Station Links, Measured Rate <sup>5</sup> Terminated on Electronic Business Sets/M5009 (DMS 100 only)				(T)
(a) Each	-	6.00	M4LRD	

**Note 1:** Rates, charges, terms and conditions will apply as specified in A12.20 and A12.21 of the GSST for all MultiServ<sup>\*</sup>/MultiServ PLUS<sup>\*</sup> features not listed herein.

**Note 2:** The rates and charges for Network Access (NAR) and end user common line charge (CALC) are in addition to the rates and charges listed herein.

**Note 3:** The terms and conditions for MultiServ<sup>\*</sup>/MultiServ PLUS<sup>\*</sup> service as specified in A12.20 and A12.21 apply for all features listed herein.

**Note 4:** Any notes appearing in the GSST relating to these USOC's in this Special Service Arrangement are applicable.

**Note 5:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

## A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

## A9. FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE SERVICE

### A9.1 Foreign Exchange Service

#### A9.1.1 Regulations

- A. Foreign Exchange Service is exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served.
- B. Foreign Exchange Service is offered in connection with Flat Rate or Measured Rate<sup>1</sup> Individual Main Station Line Service and Flat Rate or Measured Rate<sup>1</sup> PBX Service and Centrex or ESSX-1 Service only. These channels may be furnished on a link (partial channel) basis when connected to FlexServ<sup>®</sup> service, and/or MegaLink<sup>®</sup> channel service. (T)
- C. Other services, equipment or facilities used in connection with Foreign Exchange Service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the foreign exchange from which the subscriber is served.
- D. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives, as apply in connection with other classes of service.
- E. Subscribers to Foreign Exchange Service are not required to subscribe to other service in the exchange from which they would normally be served except where the normal exchange has Extended Area Service with the foreign exchange.
- F. When the foreign exchange from which service is requested has more than one exchange and/or central office in its Local Calling Area, the Company shall determine from which of the exchanges and central offices service will be furnished. When two or more companies are involved in furnishing the service, such determination may be made only with the consent of the company which operates the exchange from which the service will be furnished.
- G. Allowance for interruption on the interexchange channel is the same as specified for Type 2001 interexchange channels in the Private Line Services Tariff.

#### A9.1.2 Reserved For Future Use

#### A9.1.3 Rates And Charges

##### A. Methods Of Applying Rates

The rate for Foreign Exchange Service is the nonrecurring and monthly rate for Flat or Measured Rate<sup>1</sup> Individual Main Station Line Service, PBX Flat or Measured Rate<sup>1</sup> Trunk Line applicable within the serving foreign exchange, plus mileage, usage (not applicable to residence customers and channels where the originating and terminating ends are located within the same Local Calling Area), and installation charges specified in A9.1.3 following and the service charges specified in Section A4. For Centrex and ESSX-1 off-premises stations the Centrex or ESSX-1 service applicable within the Base Rate Area of the serving foreign exchange applies, plus mileage and installation specified in A9.1.3. following and the service charges specified in Section A4. (T)

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

## A9. FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE SERVICE

### A9.2 Foreign Central Office Service

#### A9.2.1 General

- A. Foreign Central Office Service is exchange service furnished to a subscriber in a multi-office exchange from a central office other than the one from which service would normally be furnished.
- B. Foreign Central Office Service is offered in connection with Flat Rate or Measured Rate<sup>1</sup> Individual Line Main Station Service and Flat Rate or Measured Rate<sup>1</sup> PBX Service. (T)
- C. Other services, equipment or facilities used in connection with Foreign Central Office Service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the foreign central office from which the subscriber is served.
- D. Alternate routing of this service may be provided on a direct serve basis to the subscriber's premises from the requested foreign central office on an individual case basis as specified in Section A5. of this Tariff, subject to the following conditions:
  1. The subscriber must maintain a minimum of fifty percent of the trunks/lines from the central office from which service would normally be furnished.
  2. Rates and charges for all components of the service will continue to apply as specified in A9.2.2.A. and B. following with the exception of those applicable for Type 2145 channel(s). The monthly rate for the class of service desired will be based on the rates applicable from the foreign central office, but will be no less than the rates for that service from the subscriber's normal serving wire center. Additionally, rates and charges as specified in A5. of this Tariff will apply on an individual case basis.

#### A9.2.2 Rates And Charges

##### A. Methods Of Applying Rates

The rate for Foreign Central Office Service is the monthly rate for the class of service desired, plus a foreign central office mileage charge as shown in A9.2.2.B. following, for the distance, airline measurement, between the central office from which the subscriber would normally be served and the foreign central office; i.e., the central office from which the subscriber desires to be served. In addition, the subscriber is charged any Zone Mileage Charge which would apply for connection with the central office from which service normally would be rendered.

- B. The service charges for connection, move or change of service specified in Section A4. apply in addition to the installation charge.

##### 1. Type 2145

- a. Interoffice Channel including the Channel Terminals

##### (1) Per channel

	Installation Charge	Monthly Rate	USOC
(a) First 1/4 mile	\$28.00	\$33.50	1LX4R
(b) Each additional 1/4 mile or fraction thereof	-	.40	1LX4X

### A9.3 Reserved For Future Use

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(N)

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.20 MultiServ® Service (Cont'd)

#### A12.20.2 Regulations (Cont'd)

- F. Facilities may be used for direct connections between a subscriber's MultiServ® service and other systems primarily for communication between stations of the two systems. Rates and charges for these connection facilities are specified in either Section A13. of this Tariff or Section B3. of the Private Line Services Tariff. Private facility access charges apply. These facilities, connecting MultiServ® service, may be arranged to provide completion of incoming or outgoing exchange and long distance message network through the subscriber's MultiServ® service system to or from other systems, provided such connections to the exchange or long distance message network are only made one system at a time. (T)
- G. Feature Groups as listed in A12.20.10 of this Tariff may require customer-provided compatible terminal equipment.
- H. If the subscriber of MultiServ® service *has* Measured Rate service, usage charges as specified in Section A103. of this Tariff are applicable on calls to locations outside the subscriber's system in addition to rates and charges in this and other tariff sections for MultiServ® service and other associated services. Usage charges are not applicable on calls originated and terminated within the same MultiServ® service system, unless the system is equipped with Assumed Dial '9'. (C)
- I. Suspension/Denial of Service - MultiServ® service may be suspended or denied at the subscriber's request or at the instance of the Company. (T)
  - 1. Suspension at the request of the subscriber will be allowed on the link portion of the main station line at 50 percent of the rate regularly charged. Feature Groups and optional Features outlined in Section A12 of this Tariff will be suspended at no recurring charge during the period of suspension unless otherwise noted. Other rules and restrictions as outlined in Section A2 of this Tariff apply. The subscriber may request this suspension for a maximum of three months in succession. Restoration charges will be applicable per line as specified in Section A4. of this Tariff.
  - 2. Denial at the instance of the Company will be allowed for non-payment of rates and charges for MultiServ® service and the associated services. Restoration charges will be applicable per line as specified in Section A4. of this Tariff. (T)
- J. Directory Listings will be furnished subject to the rates and regulations specified in Section A6. of this Tariff. A standard Directory Listing will be provided at no charge for each main station line.
- K. Service charges, as specified in Section A4. of this Tariff, apply to each station link in the same manner as for an individual business line and to all of the subscriber's systems unless otherwise indicated.
- L. MultiServ® service installation charges are due on initial installation unless arrangements are made for Installment or Deferred Billing as specified in Section A2. of this Tariff. (T)
- M. End User Charges as specified for End User Common Access Service in BellSouth Telecommunications Inc., FCC No. 1, Section 4 apply per line. For purposes of application of End User Charges only, MultiServ® service station lines for use by residents of dormitory living quarters, barracks and nursing homes will be considered residential service. Main station lines terminated in such housing for administrative or business use will be considered business service. (T)
- N. Concessions will not apply to MultiServ® service except those allowed to Corporate Communication/Affiliate Billing MultiServ® service accounts. (T)
- O. Service order charges will not apply for the provision of Calling Number Delivery Blocking.
- P. During collection or distribution of the subscriber's ACD-NMR and/or Switch-Computer Application Interface (SCAI) Link data, due to faults or defects in telephone equipment, data may be destroyed. The Company shall not be liable, directly or indirectly, for damages, except as outlined in A2.5.1 of this Tariff.
- Q. Customer Premises Equipment (CPE) and software for use with ACD and/or Switch-Computer Application Interface (SCAI) Link is the responsibility of the user for provisioning. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD Service render any facilities provided by the customer obsolete, or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- R. A mixture of Flat Rate and Measured Rate Local Exchange Service will not be allowed.
- S. ISDN Business Service (ISDN - IBS) lines may be purchased out of Section A42. of this Tariff to be associated with MultiServ® service or MultiServ® PLUS service. Terms and conditions of MultiServ® service and MultiServ® PLUS service will apply to these ISDN - IBS lines except as otherwise stated in Section A42. of this Tariff. (T)

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.20 MultiServ® Service (Cont'd)

#### A12.20.2 Regulations (Cont'd)

##### S. (Cont'd)

Each ISDN Basic Rate DSL Access Arrangement will be counted as a MultiServ® service or MultiServ® PLUS service line in determining the total system size. (T)

MultiServ® service Optional Features compatible with ISDN may be purchased for use with these ISDN - IBS lines. MultiServ® service Feature Groups are not available for use with these ISDN - IBS lines. (T)

ISDN - IBS lines not associated with a MultiServ® service or MultiServ® PLUS service may not purchase features from this section of the Tariff. (T)

T. Flat Rate service *is* available to *subscribers as* outlined in Section A3. of this Tariff. (C)

#### A12.20.3 Unconditional Satisfaction Guarantee

A. If the subscriber is not completely satisfied with MultiServ® service within ninety (90) days of the effective billing date, all payments will be handled as indicated in this paragraph. (T)

1. The following charges will be refunded:

a. Nonrecurring and recurring charges (up to ninety days recurring billing) for rate elements as specified in this sub-section for MultiServ® service. (T)

b. Service charges from Section A4. of this Tariff.

2. The following charges will not be refunded:

a. End User Common Line Charges as specified in BellSouth Telecommunications, Inc., FCC No. 1, Section 4.

b. Usage Charges from Section A103. of this Tariff. (T)

3. Customer-provided equipment acquired for use with MultiServ® service will not be included in this plan. (T)

4. This guarantee will not apply to transfers of service, moves, conversions or recasts. (T)

5. MultiServ® service will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction. (T)

6. Subscribers requesting an extension of the ten (10) day disconnection interval to accommodate installation of a replacement product/service, will be billed the recurring rates for that period, not to exceed six (6) months.

7. Subscribers must retain continuous service beyond the ninety (90) days via other Local Exchange Services as offered in Section A3. of this Tariff.

#### A12.20.4 Intercept of Calls

A. Rerouting of calls that cannot be completed to the number originally dialed will be offered either standard Intercept or Automatic Number Referral.

1. Intercept - Incoming calls from the exchange and long distance message networks to unassigned station numbers are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.

Intercommunicating calls to unassigned station numbers are intercepted by central office recorded announcement equipment which is common to all subscriber's MultiServ® service systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory number of the caller's system should be consulted. (T)

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.23 Reserved for Future Use

### A12.24 Reserved for Future Use

### A12.25 BellSouth® Centrex Service

#### A12.25.1 General

- A. BellSouth® Centrex service provides an arrangement of switching equipment and station lines for intercommunicating among the station lines and for connection through the local and long distance message network to other subscribers on a dial basis. BellSouth® Centrex service is furnished from central office equipment located on Company premises and associated facilities arranged to provide the following basic service capabilities/features.
  1. Exchange and long distance message network calls may be made to station lines by dialing the number associated with that station line or attendant position.
  2. Exchange and long distance message network calls may be made from station lines via direct outward dialing.
  3. Station-to-station intercommunication via two to ten-digit dialing between station lines of the subscriber's system.
  4. Outgoing long distance message calls dialed by a station line will be identified by the seven-digit station number. Only calls billed to the subscriber by the Company will be provided this identification.
  5. Touch-Tone service.
  6. Common recorded announcement interception of calls to unassigned station numbers.
- B. BellSouth® Centrex service will be furnished to subscribers requesting one (1) or more station lines served by the same central office equipment.
- C. A subscriber's system may be comprised of the following components:
  - Common Equipment
  - Station Lines
  - Network Access Registers
  - Optional Features
- D. Access to the local and long distance message networks will be provided via Network Access Registers (NARs) at the rates and charges indicated in Section A3. of this Tariff.

#### A12.25.2 Regulations

- A. BellSouth® Centrex service is furnished subject to the availability of facilities and features from central office equipment located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions.
- B. Each system established must consist of a minimum of the Common Equipment, one (1) station line and one (1) Network Access Register.
- C. A station line will be comprised of the Standard Features and the associated Station Link, which include access to the serving central office equipment.
- D. BellSouth® Centrex service will not be offered in a manner which provides for intercommunication only.
- E. Facilities may be used for direct connections between a subscriber's BellSouth® Centrex service and other systems primarily for communication between stations of the two systems. Rates and charges for these connection facilities are specified in either Section A13. of this Tariff or Section B3. of the Private Line Services Tariff. Charges for access to Private Facilities as specified in A12.25.8.E. of this Tariff are applicable. These facilities, connecting BellSouth® Centrex service, may be arranged to provide completion of incoming or outgoing exchange and long distance message network through the subscriber's BellSouth® Centrex service system to or from other systems, provided such connections to the exchange or long distance message network are only made one system at a time.
- F. Station lines may require customer-provided compatible terminal equipment.
- G. If the subscriber of BellSouth® Centrex service has Measured Rate service, usage charges as specified in Section A103. of this Tariff are applicable on calls to locations outside the subscriber's system in addition to rates and charges in this and other tariff sections for BellSouth® Centrex service and other associated services. Usage charges are not applicable on calls originated and terminated within the same BellSouth® Centrex service system, unless the system is equipped with Assumed Dial '9', in which case any appropriate usage charges will be applicable.

(C)

EFFECTIVE: October 30, 2002

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.25 BellSouth® Centrex Service (Cont'd)

#### A12.25.2 Regulations (Cont'd)

- H. Suspension/Denial of Service - BellSouth® Centrex service may be suspended or denied at the subscriber's request or at the instance of the Company.
1. Full suspension of service at the request of the subscriber will be allowed on the Common Equipment, Station Links, and certain ISDN rate elements as indicated in A12.26.2 of this Tariff in a system at 50 percent of the rate regularly charged. Full suspension of a system requires that all Station Links and the ISDN elements indicated in A12.26.2 of this Tariff in a system be suspended. Standard Features and Optional Features outlined in Section A12. of this Tariff will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth® Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. of this Tariff apply. Charges for restoration will be applicable as specified in Section A4. of this Tariff.
  2. Partial suspension of service at the request of the subscriber will be allowed on selected Station Link(s) and certain ISDN rate elements as indicated in A12.26.2 of this Tariff in a system at 50 percent of the rate regularly charged. Standard Features and Optional Features outlined in Section A12. of this Tariff associated with the Station Link(s) suspended will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth® Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. of this Tariff apply. Charges for restoration will be applicable as specified in Section A4. of this Tariff.
  3. Denial at the instance of the Company will be allowed for non-payment of rates and charges for BellSouth® Centrex service and the associated services. Restoration charges will be applicable as specified in Section A4. of this Tariff.
- I. Directory Listings will be furnished subject to the rates and regulations specified in Section A6. of this Tariff.
- J. Service charges, as specified in Section A4. of this Tariff, apply to each station line in the same manner as for an individual business line and to all of the subscriber's systems unless otherwise indicated. A Secondary Service Charge from Section A4. of this Tariff applies per occasion for the addition or change of a feature or features provided as part of the Standard Features element.
- K. BellSouth® Centrex service installation charges are due on initial installation unless arrangements are made for Installment or Deferred Billing.
- L. For purposes of application of End User Common Line charges only, charges for BellSouth® Centrex service station lines will be as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
- M. Concessions will not apply to BellSouth® Centrex service except those allowed to Corporate Communication BellSouth® Centrex service accounts.
- N. Service charges will not apply for the provision of Calling Number Delivery Blocking.
- O. During collection or distribution of the subscriber's ACD-NMR and/or Switch-Computer Application Interface (SCAI) Link data, due to faults or defects in telephone equipment, data may be destroyed. The Company shall not be liable, directly or indirectly, for damages, except as outlined in A2.5.1 of this Tariff.
- P. Customer Premises Equipment (CPE) and software for use with ACD and/or Switch-Computer Application Interface (SCAI) Link is the responsibility of the user for provisioning. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD Service render any facilities provided by the customer obsolete, or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- Q. A mixture of Flat Rate and Measured Rate Local Exchange Service will not be allowed.
- R. BellSouth® Centrex ISDN Service lines may be purchased out of A12.26 of this Tariff to be associated with BellSouth® Centrex service. Terms and conditions of BellSouth® Centrex service will apply to these BellSouth® Centrex ISDN service lines except as otherwise stated in A12.26 of this Tariff.  
BellSouth® Centrex ISDN service lines may subscribe to compatible Optional Features from this section of the Tariff.
- S. BellSouth® Centrex service is available to subscribers of Flat Rate service as outlined in Section A3. of this Tariff.
- T. Specific name and location data associated with BellSouth® Centrex service station lines, if requested, will be provided to BellSouth by the subscriber. The Company is not responsible for any issues that may arise from inaccurate data. In the event any claim is brought against the Company in connection with any errors or omissions in name and location data, the Company's liability shall be limited to one month's service for the BellSouth® Centrex service station line or station lines involved.

**Note 2:** This Station Link is required for all BellSouth® Centrex Control station lines in the 1AESS, SESS, and EWSD® switches.

**Note 3:** If Caller ID is desired, the Caller ID feature located in A12.25.21 of this Tariff should be provisioned.

**Note 4:** Requires a metallic facility from the switch to the customer premises.

**Note 5:** When the station link is served from a different serving wire center, rates and charges in A12.25.8.D. of this Tariff also apply.

#### A13.6 Reserved For Future Use

#### A13.7 Reserved For Future Use

#### A13.8 Reservation Service

##### A13.8.1 General

- A. Reservation Service is service furnished at airports and other public places for the use of the public in calling hotels, motels, restaurants, car rental agencies etc., in the local calling area regarding room reservations and other arrangements. It contemplates the use of an automatic dialer which will include the telephone numbers of those firms arranging for the service.
- B. The subscriber for Reservation Service may be the subscriber whose telephone numbers are included in the automatic dialer, agencies representing such subscriber or governmental authorities at airport terminals. The Reservation Service subscriber shall be responsible for the payment of all charges for telephone service and facilities furnished by the Company for use with the Reservation Service.
- C. The subscriber is responsible for providing, at its expense, suitable space, and any special mounting arrangements, etc., that may be required, subject to the approval of the Company.
- D. It shall be the responsibility of the subscriber to provide suitable instructions for the proper operation of the Reservation Service by the public; to provide and subscribe for adequate service, equipment and facilities to meet the requirements of the public.
- E. All ordinary expense of maintenance and repairs of the Reservation Service is borne by the Company. The subscriber is held responsible for the safety of the equipment at the terminal and will be billed the actual costs due to injury or destruction of the equipment caused by the subscriber or by the transient public otherwise than by unavoidable accident.

(N)

## A13. MISCELLANEOUS SERVICE ARRANGEMENTS

### A13.9 Custom Calling Services (Cont'd)

#### A13.9.2 Rules, Regulations and Limitations

##### A. All Custom Calling Services

1. The services are available subject to network capability and facility availability
2. The services are furnished in connection with individual line service. The services are not available in connection with Prestige® Communications Service, Prestige® Deluxe, Centrex Type Services or Coin telephone services.
3. Custom Calling services can be suspended as specified in A2.3.16 of this Tariff. During the period of suspension, no recurring charge applies.

##### B. Call Forwarding – all varieties

1. In addition to the rates in this Tariff section for Call Forwarding features, the following charges apply for the call being forwarded:

##### a. Between the originating station line and call forwarding location.

The charge for this portion of a forwarded call shall be the charge specified in this Tariff, or any other applicable tariff, for the type of call involved, either local or toll, for the entire duration of the call, but measured only the distance to the call forwarding location.

##### b. Between the call forwarding location and the terminating station line.

For calls forwarded outside the Local Calling Area, the Call Forwarding customer is responsible for the applicable toll charges.

For calls forwarded inside the Local Calling Area, a measured or message rate<sup>1</sup> service Call Forwarding customer is responsible for the applicable customer-dialed measured or message rate<sup>1</sup> service charges specified in this Tariff, as appropriate, for each call answered at the answering location. (T)

Such charges apply to all calls answered at the answering location, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

2. For use with PBX trunks, Call Forwarding is offered subject to the following limitations:

- a. It may be provided only when compatible with the equipment configuration at the customer's premises.
- b. It is available only on two-way trunks.
- c. It is not available with Direct Inward Dialing trunks.
- d. If the feature is proposed on a facility on which hunting is also to be provided, this service is available only with Multi-Line and Series Completion hunting arrangements and is subject to the limitations of these arrangements.
- e. When calls are being forwarded intra-office, the number of calls that can be forwarded simultaneously is equal to the number of trunks in the customer's system that are arranged to receive calls and are equipped to provide the Call Forwarding feature.
- f. When calls are being forwarded inter-office, only one call can be forwarded at a time.
- g. Call Forwarding can be sequentially forwarded in a chain across lines within a central office a maximum of five times.

##### C. Three-Way Calling

Two toll points may be connected by Three-Way Calling.

##### D. Speed Calling

On PBX trunks, this feature is available on a per trunk equipped basis.

On OutWATS lines, this feature is available on a per line equipped basis and is limited to one Speed Calling list per OutWATS facility group.

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.9 Custom Calling Services (Cont'd)

##### A13.9.4 Per Use Three-Way Calling Service

###### A. General

1. Per Use Three-Way Calling is available to all individual line residence and business customers where facilities permit. This service permits use of the three-way calling feature on an as-needed basis, with the subscriber paying the rate shown in A13.9.4.B. for each occasion it is successfully used. Three-way calling permits the subscriber activating the feature to hold an in-progress call and originate a second call while maintaining privacy from the first call, or to add another party for a three-way conference arrangement.
2. Switch-specific technology determines how a subscriber "activates" the feature. In certain switch technology, the feature is activated by "flashing" the serving switch from the subscriber's terminating equipment. ("Flashing" is accomplished via a receiver button, switchhook, hook flash key, flash key, etc.) This technology provides the subscriber with spontaneous control of the feature. Other switch technology requires that the feature be dial-activated by the subscriber prior to establishing the first leg of a three-way call, using a Company-provided code.
3. The per use charge is applied only when a forwarded call is completed. Completed calls include, but are not limited to, those calls terminated to telephones, voice messaging systems, answering machines, facsimile machines, modems, etc.
4. The per use charge is in addition to any tariffed switched network usage charge appropriate for the line with which the Per Use Three-Way Calling feature is associated. Such usage may include, but is not limited to, toll charges, local measured service<sup>1</sup> charges, exception calling plan rates, etc. Terms and conditions of these charges are as covered in the tariff section specific to the particular call type, and are not impacted by the application of the per use charge.
5. Access to the per use capability can be restricted at the customer's request at no charge.

###### B. Rates

1. Per Use Three-Way Calling
  - a. Per use (requires completion and bridging of second call of a Three-Way call)
    - (1) Usage Charge

	Charge	USOC
(a) Residence	\$ .90	NA
(b) Business	.90	NA

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(T)

(N)

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.11 Remote Call Forwarding Service (Cont'd)

##### A13.11.4 Minimum Contract Period

The minimum contract period for this service is one month.

##### A13.11.5 Rates And Charges

The following charges are for the Remote Call Forwarding feature only and are in addition to applicable charges for any service and equipment with which it is used.

Where customers have fifteen or more unique RCF features on a billing account, a credit of twenty-five percent (25%) will be applied per billing cycle to the monthly rate for each such unique service feature, including the first fifteen. For purposes of qualifying for such credit, a unique feature is defined by calling scope, jurisdiction and business/residence classification: e.g., Residence, Intrastate, IntraLATA; or, Business, Measured<sup>1</sup> Local. Additional features (Calling Paths) also qualify as a unique feature. Unique features may not be combined to qualify for this credit; e.g., local features may not be combined with toll features. (T)

##### A. Remote Call Forwarding Service

1. Per initial feature arranged and one access path for either interexchange, intraexchange, or local calling area, per service request.

	Installation Charge	Monthly Rate	USOC
(a) Each	\$12.50	\$16.00	RCF++
2. Per additional feature, on same service request			
(a) Each	-	16.00	RCA
3. Per first additional feature on subsequent service request			
(a) Each	12.50	16.00	RCA

##### B. Message Charges

The message charges applicable to remotely forwarded calls shall be comprised of two separate charges:

1. a charge for that portion of the call from the originating station to the call forwarding location, and
2. a charge for that portion of the call from the call forwarding location to the terminating station.

The respective charge for each such portion shall be as follows:

- a. Between the originating station and call forwarding location.

The charge for this portion of a remotely forwarded call shall be the charge specified in this or any other applicable Tariff for the type of call involved.

- b. Between the call forwarding location and the terminating station.

The Remote Call Forwarding customer is responsible for the applicable toll charges. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

Where Remote Call Forwarding is utilized for forwarding of calls within the local calling area, the measured service<sup>1</sup> rates effective for that local calling area are applicable for each call answered at the terminating station line. (T)

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.11 Remote Call Forwarding Service (Cont'd)

##### A13.11.5 Rates And Charges (Cont'd)

##### B. Message Charges (Cont'd)

##### 2. (Cont'd)

##### b. Between the call forwarding location and the terminating station. (Cont'd)

Calls which terminate within the local calling area will be billed usage charges as described in Section *A103.* of this Tariff, as appropriate. Provisions contained in *A103.1.E.* govern the specific usage rates to be applied. Plan options, usage allowances, and usage caps are not applicable to these usage charges. (T)

##### C. Service Charges as shown in Section A4. of this Tariff apply as follows:

1. For the initial installation of Remote Call Forwarding Service, or a subsequent addition to an existing Remote Call Forwarding Service, apply the Secondary Service Charge. (T)
2. To change the number at the call forwarding location, or to revise the terminating location number at the call forwarding location, or to do both on the same order, apply the Secondary Service Charge.

## A13. MISCELLANEOUS SERVICE ARRANGEMENTS

### A13.20 Call Screening And Restriction Services - Customized Code Restriction (CCR)

This service is a Flex-Price service and is regulated under terms and conditions as described in A2.3.26 of this Tariff.

#### A13.20.1 General

Customized Code Restriction is a service which enables customers to restrict certain types of outgoing calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or PBX trunks in either flat, message or measured rate<sup>1</sup> service environments. (T)

#### A13.20.2 Regulations

- A. Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks. Also, options of this service may not be combined with Selective Class of Call Screening in A13.12. or Toll Trunks specified in A13.14. The options of this service with their respective sets of codes are listed under A13.20.2.H. following and are available at the rates specified in A13.20.3.
- B. CCR is furnished only from central offices equipped to provide this service and where facilities permit.
- C. When CCR is provided from central offices other than the customer's normal serving central office, Foreign Central Office or Foreign Exchange charges as specified in tariff Section A9., whichever is appropriate, will apply to all lines/trunks equipped with this service.
- D. CCR does not provide restriction of non-chargeable calls to Company numbers, such as repair service, public emergency service numbers (911), or toll free 1+8XX calling (including 1+8XX calling card calls).
- E. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.
- F. Customers who subscribe to CCR options which restrict operator access have the responsibility to notify all users of their service that an operator cannot be reached.
- G. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified for the options listed in A13.20.3.
- H. CCR - Options

The codes shown for CCR options are not to be considered all inclusive. Codes may be changed and new or different codes may be added as deemed appropriate by the Company.

- 1. Option #1  
1+, 0-, 0+, 00-, (1+/0+) 411, 976 & 900, IDDD 01+, IDDD 011+, N11 Service (311, 511, 611, 811), 101XXXX
- 2. Option #2
  - a. Restricted Codes  
0-, 0+, 00-, IDDD 01+, 976
  - b. Restricted Codes  
0-, 0+, IDDD 011+, IDDD 101XXX+011+, IDDD 101XXXX+011+, 976, 1+976
- 3. Option #3 Restricted Codes  
Vacant Code Recording 1+, 0-, 0+, 00-, IDDD 01+, 011+, NPA 900, 101XXXX

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.27 Emergency Reporting Services (Cont'd)

##### A13.27.1 Universal Emergency Number Service - 911 (Cont'd)

###### C. Basic 911 (Cont'd)

###### 3. Rates And Charges (Cont'd)

###### b. 911 Exchange Lines

Filed rates for Company facilities as found elsewhere in this Tariff, for PBX trunks, flat or measured<sup>1</sup> rate business lines as appropriate will apply for 911 Exchange Lines (answering) that terminate at PSAPs. The monthly rate for the Exchange Line is the rate applicable for the exchange in which the central office originating the 911 Exchange Line is located. (T)

###### c. 911 Dedicated Facilities

When dedicated direct arrangements are provided from exchanges or central offices other than that in which the PSAP is located due to the customer's request or when dedicated-direct arrangements are provided from exchanges that do not have local calling to the exchange in which the PSAP is located, charges for Company Foreign Exchange Service or Foreign Central Office Service will apply as specified in Section A9. of this Tariff.

###### d. Non-Dedicated Facilities

Non-dedicated lines required between central offices within the exchange or within exchanges which are part of the local calling area, are provided at no charge when the central offices involved are located in exchanges which have local calling to the exchange in which the PSAP is located.

###### e. PSAP Terminal Equipment

Customer-provided equipment furnished to terminate 911 Exchange Lines at any PSAP will be required to conform to the general provisions set forth in Section A15. of this Tariff. (T)

###### f. Where appropriate, Company tie lines, private lines, and other such channels, connecting a PSAP to various agencies such as police, fire or ambulance service, are provided at filed tariff rates for such channels and facilities as specified in this and other appropriate Tariffs. (M)(T)

**Note 1:** Measured, Message and RegionServ Rate Services are obsolete October 30, 2002. Tariff Reference, Section A103. (N)

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.58 Uniform Access Number (UAN) (Cont'd)

##### A13.58.1 Description of Service (Cont'd)

###### A. (Cont'd)

11. The service is furnished subject to the availability of UANs.
12. Limitations and use of service as stated in Section A2. of this Tariff will apply.
13. Calls to a disconnected UAN will be routed to intercept over announcement facilities; however, the announcement provided will not refer the caller to another telephone number.
14. Directory Listing may be provided for UAN service at rates applicable for additional business or foreign listings as covered in Section A6. of this Tariff.
15. No local measured or message rate<sup>1</sup> service charges or long distance message telecommunications service charges will be collected from end users for calls to a UAN customer. Long distance charges associated with calls to a Uniform Access Number will be reversed billed to the UAN customer.
16. Access to UAN may not be available to certain classes of service.

(T)

##### A13.58.2 Regulations

- A. A UAN can be used only for one customer in an NPA. All usage will be combined and billed per account per Revenue Accounting Office.
- B. The UAN monthly rate is applicable on a per telephone number per TOPS Tandem office basis.
- C. The customer must be located within the same state as the TOPS office that is providing UAN Service.
- D. UAN Service will be provided within a maximum of thirty (30) days after the customer's request for service has been processed in order to allow the Company sufficient time for implementation.

##### A13.58.3 Reservation of Uniform Access Numbers

- A. A customer may reserve UANs in NPAs where the customer does not have service in order to insure expansion to other areas with the same UAN; however, a customer must implement a UAN in at least one LATA in BellSouth territory in order to reserve the UAN in other NPAs. In the event that the customer elects not to be provided with reserved UANs, telephone numbers cannot be assured for the customers requirements in other NPAs.
- B. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
- C. The service is furnished subject to the availability of UANs.
- D. Calls to reserved (unassigned) UANs will be routed to recorded announcement facilities.
- E. UANs furnished herein retain their reserve status until removed by the customer from the reserved status or assigned as a UAN at which time the service assumes rates and charges applicable to UAN.
- F. Reservation of UAN rates will be billed until the UAN is removed from reserved status or billed as an active UAN in at least one LATA within an NPA.
- G. A Secondary Service Charge per NPA is applicable in addition to the nonrecurring charge for reservation of UAN.

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### A13.90 Business Programs (Cont'd)

##### A13.90.4 BellSouth® Primary Rate ISDN Voice/Data Program

###### A. Rules and Regulations

Beginning March 22, 2001 and continuing until June 22, 2001, qualifying customers may enroll in this Program, which provides discounts on their billed monthly charges on BellSouth® Primary Rate ISDN as described below, by signing a two-year or three-year term contract.

1. In order to qualify for the Business Discount Program for Voice/Data Primary Rate ISDN, new and existing BellSouth business customers agree to maintain at least 4 BellSouth® Primary Rate ISDN circuits.
2. Existing BellSouth® Primary Rate ISDN customers whose tariff or Contract Service Arrangement (CSA) term plan has more than six months remaining before expiration may not enroll in this program. Applicable termination liability charges will be waived for qualified existing BellSouth® Primary Rate ISDN customers who terminate a tariff or CSA term plan and enroll in this program with the same service provided under that term plan.
3. Qualifying Program participants must sign a term contract of two or three years to receive the B-Channel monthly recurring rates that are detailed in B. following. Other Primary Rate ISDN rate elements required for service will be billed at rates as stated in A42.3.4 of this Tariff.
4. To participate in this Program, qualifying customers must sign a two or three year term contract between March 22, 2001 and June 22, 2001. Following this period, no subscribers may enroll in this Program. This Program is available for resale for the duration of this enrollment period. Following the expiration of this enrollment period, no new customers may enroll in the Program, but any contract established under this Program between BellSouth and its customers would continue to be available for resale for the remaining term of the existing contract. Aside from these resale situations, a customer may not assign its rights under any contract signed pursuant to this Program to another customer or to any other third party.
5. Should a participating customer terminate a contract signed under this Program without cause, charges for termination or cancellation of service shall not exceed the lesser of: (a) the sum of the repayment of discounts received during the previous 12 months of the service and the repayment of the prorated amount of any waived or discounted non-recurring charges; or (b) six percent (6%) of the total contract amount.
6. New Voice/Data Primary Rate ISDN service enrolled in this program must be installed by August 22, 2001.
7. Customer revenue associated with this program is not eligible for additional discounts under any other BellSouth program or CSA, including Volume and Term contracts.
8. Program rates may be applied up to a maximum of 20 Voice/Data Primary Rate ISDN circuits.

###### B. Program Rates

1. The program rates will be applied in lieu of Voice/Data (Standard) tariff rates.
2. The Voice/Data (Standard) program monthly recurring rates are as follows:

	24 Months	36 Months	USOC
(a) Flat Rate BellSouth® Primary Rate ISDN B-Channels	\$16.00	\$15.00	PR7BV
(b) Usage Sensitive BellSouth® Primary Rate ISDN B-Channels for use with RegionServ <sup>1</sup>	16.00	15.00	PR7BS

3. If a program participant purchases new BellSouth Voice/Data PRI during the 90-day enrollment period, the Primary Rate ISDN nonrecurring charges will be waived.

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(T)

(N)

## A13. MISCELLANEOUS SERVICE ARRANGEMENTS

### A13.90 Business Programs (Cont'd)

#### A13.90.5 BellSouth® Primary Rate ISDN Voice/Data Program Two

##### A. Rules and Regulations

Beginning May 31, 2001 and continuing until December 31, 2001, qualifying customers may enroll in this Program, which provides discounts on their billed monthly charges on BellSouth® Primary Rate ISDN as described below, by signing a two-year or three-year term contract.

1. In order to qualify for the Business Discount Program for Voice/Data Primary Rate ISDN, new and existing BellSouth business customers agree to maintain a minimum of one BellSouth® Primary Rate ISDN circuit.
2. Existing BellSouth® Primary Rate ISDN customers whose tariff or Contract Service Arrangement (CSA) term plan has more than six months remaining before expiration may not enroll in this program. Applicable termination liability charges will be waived for qualified existing BellSouth® Primary Rate ISDN customers who terminate a tariff or CSA term plan and enroll in this program with the same service provided under that term plan.
3. Qualifying Program participants must sign a term contract of two or three years to receive the B-Channel monthly recurring rates that are detailed in B. following. Other Primary Rate ISDN rate elements required for service will be billed at rates as stated in A42.3.4 of this Tariff.
4. To participate in this Program, qualifying customers must sign a two or three year term contract between May 31, 2001 and December 31, 2001. Following this period, no subscribers may enroll in this Program. A customer may not assign its rights under any contract signed pursuant to this Program to another customer or to any other third party.
5. Should a participating customer terminate a contract signed under this Program without cause, charges for termination or cancellation of service shall not exceed the lesser of: (a) the sum of the repayment of discounts received during the previous 12 months of the service and the repayment of the prorated amount of any waived or discounted non-recurring charges; or (b) six percent (6%) of the total contract amount.
6. New Voice/Data Primary Rate ISDN service enrolled in this program must be installed by February 28, 2002.
7. Customer revenue associated with this program is not eligible for additional discounts under any other BellSouth program or CSA, including Volume and Term contracts.
8. Program rates may be applied up to a maximum of three Voice/Data Primary Rate ISDN circuits.

##### B. Program Rates

1. The program rates listed below will be applied in lieu of Voice/Data (Standard) monthly recurring tariff rates.

	24 Months	36 Months	USOC	
2. Voice/ Data (Standard) Flat Rate BellSouth® Primary Rate ISDN B-Channels				
(a) Quantity of one Primary Rate ISDN Circuit, per B-Channel	\$24.00	\$22.00	PR7BV	
(b) Quantity of two Primary Rate ISDN Circuits, per B-Channel	23.00	21.00	PR7BV	
(c) Quantity of three Primary Rate ISDN Circuits, per B-Channel	22.00	20.00	PR7BV	
3. Voice/Data (Standard) Usage Sensitive BellSouth® Primary Rate ISDN B-Channels for use with RegionServ <sup>1</sup>				(T)
(a) Quantity of one Primary Rate ISDN Circuit, per B-Channel	24.00	22.00	PR7BS	
(b) Quantity of two Primary Rate ISDN Circuits, per B-Channel	23.00	21.00	PR7BS	
(c) Quantity of three Primary Rate ISDN Circuits., per B-Channel	22.00	20.00	PR7BS	
4. If a program participant purchases new BellSouth Voice/Data PRI during the enrollment period, the Primary Rate ISDN nonrecurring charges will be waived.				

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(N)

## A27. SHARED TENANT SERVICE OFFERINGS

### A27.1 Sharing And Resale Of Basic Local Exchange Service

#### A27.1.1 General

- A. In general, Basic Local Exchange Service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of Basic Local Exchange Service is permitted only under the specific conditions described in this Tariff. For the purpose of this Tariff section, "sharing" of Basic Local Exchange Service is considered synonymous with "resale" of Basic Local Exchange Service.
- B. When in the judgment of the Company it is deemed necessary, or when the projected number of clients is five or more, the customer must apply in writing to resell exchange services provided by the Company and may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings.  
All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller's communication system will be the responsibility of the reseller (customer of record)/owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange service available. If a customer does business with both the reseller and the Company, measured service will be required.  
Nothing in this Tariff section impairs the Company's franchise or ability to operate in the state. This Tariff is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.
- C. Resale is permitted where facilities permit and within the confines of specifically identified contiguous property areas under the control of a single owner or within a common development with a single name identity, i.e., office parks, shopping centers, apartment complexes, condominiums. Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be contiguous in the absence of the thoroughfare. The designated resale service area must be wholly within the confines of existing exchange boundaries.
- D. The premises definition as applies to resale of Basic Local Exchange Service is a resale area as defined by layout maps, if appropriate. See premises as defined in Section A1. of this Tariff.
- E. Private line services may be provided to tenants of resellers under the rules and regulations specified in Section A2. of this Tariff and Section B2. of the Private Line Services Tariff.
- F. Private interconnection of resale service areas within an exchange local calling area and LATA is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Sharing and Resale trunks or lines. The reseller's communication switch may not be connected via private lines to other communications systems which subscribe to flat rate exchange service.
- G. All other rules and regulations specified in other sections of this Tariff will apply.

#### A27.1.2 Regulations And Application Of Rates

- A. Resale of Basic Local Exchange Service is available on a RegionServ<sup>1</sup> basis where RegionServ is available, on a business measured rate<sup>1</sup> service basis in locations where RegionServ is not available, or on a flat rate basis.

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

## A29. DATA TRANSPORT SERVICE

### A29.6 AccuPulse® Service (Cont'd)

#### A29.6.3 Rates And Charges (Cont'd)

##### C. AccuPulse® service Network Call Usage Charges.

The following charges apply whenever an AccuPulse Network Call is established.

##### 1. AccuPulse® service Network Call

	Rate	USOC	
(a) Initial one minute or fraction thereof, per call	\$ .12	NA	
(b) Additional minute increment or fraction thereof	.10	NA	
2. Applicable rate discount periods are the same as for Measured Rate <sup>1</sup> Service as found in Section A103. of this Tariff.			(T)
3. When messages span more than one rate period, total charges for the minutes in each rate period are summarized. The results for each rate period are totaled to obtain the total message charge.			

##### D. AccuPulse® service Remote Capability Charge

When a customer who is served by an office other than an AccuPulse® Serving Central Office and who is within the AccuPulse® service Normal Serving Area of that office orders AccuPulse® service, the following charges apply in addition to those in A. preceding. These charges apply to each line that is extended.

##### 1. AccuPulse® service Remote Capability, Interoffice<sup>2</sup> Channel Charge (per line)

	Nonrecurring Charge	Monthly Charge	USOC
(a) First mile	\$385.00	\$50.00	1LNSX
(b) Each additional mile or fraction thereof	-	2.00	1LNSG

##### E. Service Charges

All service connection charges for AccuPulse® service Arrangement, AccuPulse® service Access Line and AccuPulse® service Remote Capability are included in their respective nonrecurring charges preceding. Service Charges from Section A4. of this Tariff are not applicable.

### A29.7 Administrative Management Service (AMS)

#### A29.7.1 Description of Service

##### A. General

Administrative Management Service provides customers a single point of access to other Company network management products, and provides the customers greater control of and additional information about the network services they purchase from the Company. Although most Operation Support Systems (OSS) are optional on a nominal business day, AMS will be provided on a 24 hour basis for continuous usage of those systems that are accessible 24 hours.

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

**Note 2:** Refer to the National Exchange Carrier Association (NECA) Tariff, FCC No. 4, for mileage measurement methodology and wire center V&H coordinates.

### A35. INTERCONNECTION OF MOBILE SERVICES

#### A35.1 Interconnection Services for Mobile Service Providers (MSP's) (Cont'd)

##### A35.1.1 General (Cont'd)

##### M. Miscellaneous Information - Type of Interconnection Service (Cont'd)

5. BellSouth CMRS Type 1, BellSouth CMRS Type 2A, and BellSouth CMRS Type 2B circuits are four wire circuits using only multifrequency (MF) address pulsing with wink start operations and E&M supervision.
6. At the request of the MSP or at the discretion of the Company, subject to the operating limits and availability of facilities, these services may be provided from central offices other than the MSP's serving central office (C.O.). Where the C.O. can technically provide service as specified in the technical publications, but cannot measure due to switch limitations, such as software unavailability, then the Company may provide the service from a C.O. other than the MSP's serving C.O. at no additional charge to the MSP. Where a C.O. cannot technically provide a mobile service interconnection as specified in the technical publications because of equipment type, then the MSP must select an alternate C.O. capable of providing the requested type of service, in which case appropriate mileage rates will apply.

##### N. MSP Selective Class of Call Screening

1. MSP Selective Class of Call Screening (SCCS) is an optional service available with BellSouth CMRS Local Loop Lines, BellSouth CMRS Local Loop Trunks and BellSouth CMRS Type 1 Service.
2. MSP SCCS is offered with two options.  
Option 1 - Provides 0+ and 0- screening capability to force alternate billing and provides central office blocking of 1+, 101XXXX 1+, 976 and 900 calls. (C)  
Option 2 - Provides 0+ and 0- screening capability to force alternate billing but allows 1+, and 101XXXX 1+ calls. 976 and 900 calls are blocked. (C)
3. Subscribing to MSP SCCS only relieves the MSP of responsibility for charges associated with intraLATA calls made by subscribers using the Company's toll services. Subscribing to this service does not relieve the MSP of responsibility for charges associated with other type calls.
4. When Option 2 is selected, the MSP assumes responsibility for all sent-paid toll charges.
5. All local calls and calls to Company number such as repair service, Directory Assistance and public emergency service numbers, such as 911, will be permitted.
6. MSP SCCS will be established only where operator identification is provided through the use of automated equipment arranged to furnish this service.
7. This service is available only from central offices which have been arranged to provide the service. The service is provided subject to the availability of facilities. This service is not compatible with all service offerings.

##### A35.1.2 BellSouth CMRS Local Loop Lines and BellSouth CMRS Local Loop Trunks

- A. BellSouth CMRS Local Loop Lines are equivalent to measured<sup>1</sup> business lines. (T)
- B. BellSouth CMRS Local Loop Trunks arranged for one-way outward (MSP to C.O.) or two-way traffic may be optioned for either loop or ground start operation. BellSouth CMRS Local Loop Trunks arranged for one-way inward (C.O. to MSP) traffic with outpulsing of digits uses reverse battery supervision and may be optioned for either wink start or immediate start operation.
- C. Call Screening and Restriction Services - Customized Code Restriction (A13.20) is an optional service available with BellSouth CMRS Local Loop Lines and BellSouth CMRS Local Loop Trunks, subject to the availability of suitably equipped central offices.
- D. Coincident with the availability of RegionServ<sup>1</sup> service in a wire center, BellSouth CMRS Local Loop Lines and BellSouth CMRS Local Loop Trunks will provide local (7 digit) dialing for mobile originating traffic from the home wire center to all wire centers within a 40 mile radius, based on airline miles, in addition to the existing local calling area as described in A3.6. (T)

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

### A35. INTERCONNECTION OF MOBILE SERVICES

#### A35.1 Interconnection Services for Mobile Service Providers (MSP's) (Cont'd)

##### A35.1.6 Rates and Charges

##### A. Voice Grade Service

##### 1. BellSouth CMRS Local Loop Line with expanded 7 digit dialing

	Nonrecurring Charge \$-	Monthly Rate	USOC
(a) Measured, without rotary <sup>1</sup>		\$24.00	LCVXN
(b) Measured, with rotary <sup>1</sup>	-	36.00	LCVXR
2. BellSouth CMRS Local Loop Trunk (2 wire)			
a. One-way outward and two-way <sup>2</sup> with expanded 7 digit dialing			
(1) Local loop without rotary			
(a) Two-way	-	31.00	OPL2N
(b) One-way outward (MSP to C.O.)	-	31.00	OPLON
(2) Local loop with rotary			
(a) Two-way	-	46.50	OPL2R
b. One-way inward <sup>3,4</sup> (includes rotary)			
(1) Local loop			
(a) Each	-	46.50	OPL1R
(2) Trunk termination			
(a) Direct Inward Dialing <sup>5</sup> (C.O. to MSP)	50.00	26.00	RDZ
(3) Optional address pulsing for use with Direct Inward Dialing trunk termination			
(a) Dual tone multifrequency (DTMF)	-	7.50	S5D
(b) Multifrequency (MF)	-	7.50	S5M
3. BellSouth CMRS Local Loop Line and BellSouth CMRS Local Loop Trunk Quantity Credits (effective 01-01-94)			
Effective at the start of the first full customer bill period in 1994, when the total number of BellSouth CMRS Local LoopLines plus BellSouth CMRS Local Loop Trunks from an MSP's location to the same central office equals five (5) or more, the following credit will be applied to each line or trunk equipped with rotary service (including BellSouth CMRS Local Loop Trunks arranged for Direct Inward Dialing).			
(a) BellSouth CMRS Local Loop line/trunk quantity credit	-	10.00	NA

**Note 1:** Equivalent to a measured business line. *Measured, Message and RegionServ Rate Services are obsolete October 30, 2002. Tariff Reference, Section A103.*

**Note 2:** May be optioned for either loop or ground start operation.

**Note 3:** Uses reverse battery supervision. May be optioned for either wink start or immediate start operation.

**Note 4:** This service provides outpulsing of digits from the central office toward the MSP (direct inward dialing service).

**Note 5:** Uses dial pulse address pulsing.

(T)

## A35. INTERCONNECTION OF MOBILE SERVICES

### A35.1 Interconnection Services for Mobile Service Providers (MSP's) (Cont'd)

#### A35.1.6 Rates and Charges (Cont'd)

##### A. Voice Grade Service (Cont'd)

4. BellSouth CMRS Local Loop Line and BellSouth CMRS Local Loop Trunk Usage Caps (T)  
Measured<sup>1</sup> usage for mobile originated traffic on voice grade MSP lines and voice grade MSP trunks will be capped at \$50.00 per BellSouth CMRS Local Loop Line or BellSouth CMRS Local Loop Trunk for each group of BellSouth CMRS Local Loop Lines or each group of two-way or one-way outward BellSouth CMRS Local Loop Trunks (serving an MSP's location to the same wire center) until 12-31-93. At the start of the first bill period for an MSP's account after 12-31-93, full measured rates will apply.

5. BellSouth CMRS Type 1 or BellSouth CMRS Type 2 circuits (4 wire)

##### a. Facilities

- (1) Local loop<sup>2</sup>

	Nonrecurring Charge	Monthly Rate	USOC	
(a) Local loop, 1st	\$335.00	\$45.00	BSVVG	(T)
(b) Local loop, each additional <sup>3</sup>	145.00	45.00	BSVVG	(T)
(2) Signaling				
(a) E&M (per loop)	40.00	10.00	BSVEM	
(3) C.O. Equipment termination				
(a) Trunk termination (per loop)	12.90	37.25	BSVTP	

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

**Note 2:** A local loop extends from the carrier location to the serving wire center. (T)

**Note 3:** Each additional loop from the same carrier location to the same wire center. (T)

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

### A42.1 ISDN - Business Service (IBS) (Cont'd)

#### A42.1.1 General (Cont'd)

- G. The following parameters may be provided with Packet Switched B channel and D channel Services: (Con't)
4. Interexchange Packet - Preselect - This parameter allows an ISDN user to specify an interLATA carrier for packet switching at the time of subscription.
  5. Fast Select Option - This parameter permits user data to be passed in the call set up packets of a virtual call.
  6. Reverse Charging Option - This parameter permits the data communications equipment to transmit incoming calls requesting reverse charging to the user. The user must be subscribed to the destination line for X.25 Reverse Charge calls to be completed. If not, the call requesting reverse charging is refused.
- H. Optional B channel packet services are defined as follows and may be ordered at an additional charge.
1. B channel packet services are available in the following options. Each B channel Packet terminal will be provided logical channels up to the technical capability of the central office. Each logical channel can carry an independent call with a throughput of up to 64 Kbps. These options include one data telephone number per option.
    - a. Dedicated High Speed Packet Switched Data - This option permits the customer to establish packet data calls at speeds greater than 9.6 Kbps on the B channel.
    - b. On-Demand High Speed Packet Switched Data - This allows users to use a B channel for packet switching on demand. This feature may be used in either a multipoint or a point-to-point environment. A B channel is allocated based on user preference and on B channel availability. The user competes with all other users on the Basic Rate Interface for access to the B channel (SESS only).
  - I. D channels are equipped for Low Speed Packet Switched Data. This allows packet data (X.25) to be transmitted up to 9.6 Kbps on the D channel. Service includes logical channels up to the technical capability of the central office. Multiple packet calls can be active simultaneously by a user on a single D channel. Up to eight data terminals can be supported per Basic Rate Access. Service includes one data telephone number.
  - J. IBS will consist of the following components:
    - Basic Rate Digital Subscriber Line (DSL) Access
    - At least one channel, either B or D, must be activated. A maximum of two simultaneous B channels can be in use per Basic Rate Access.
    - Minimum of one and maximum of eight User Profiles per Basic Rate Digital Subscriber Line (DSL) Access Arrangement.
  - K. Grouping Service (Hunting) is available for ISDN Individual Service.
  - L. All circuit Switched B channel services must be either flat or measured. Mixing flat and measured B channel services is not allowed on the same premises except as allowed in Section A2. of this Tariff.

#### A42.1.2 Regulations

- A. Customer Premises Equipment (CPE) that is compatible with the ISDN Interface is the responsibility of the user for provisioning.
- B. The Company will be responsible for publishing and maintaining ISDN Interface Specifications.
- C. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Basic Rate Access render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- D. Suspension of service is not allowed except for IBS lines associated with MultiServ<sup>®</sup> service or MultiServ<sup>®</sup> PLUS service. Suspension at the request of the subscriber will be allowed on the B channel portion of these main station lines at the rates in Section A2. of this Tariff. The subscriber may request this suspension for a maximum of three months in succession. Restoration charges will be applicable per line as specified in Section A4. of this Tariff.
- E. Service Charges in Section A4. of this Tariff are applicable per Basic Rate DSL access in addition to rates and charges following.
- F. Usage rates, as appropriate for RegionServ<sup>1</sup>, are specified in Section A103. of this Tariff. Usage rates for all originating minutes of use under Usage Option Plan A and per minute of use rates for calls outside the Expanded Local Calling Area but inside the LATA for lines equipped with Usage Option Plan B are specified in this section of the tariff.

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

##### D. Usage

##### 1. Circuit Switched Voice and Data (Measured<sup>2</sup> Only)

Per minute rates for usage on all circuit switched services (voice and/or data) and regulations for RegionServ<sup>2</sup> are defined in A103.2.9 of this Tariff. (T)

##### 2. Circuit Switched Voice and Data - Usage Option Plans

Originating usage in Usage Option Plan A will be billed at the per minute of use rate per channel in use. (T)

##### (a) Per Minute of Use - Usage Option A

##### 3. Usage Outside the Expanded Local Calling Area but inside the LATA.

The following charges apply per channel in use for customer dialed calls originated from and billed to a IBS line equipped for Usage Option Plan B when calls terminate outside the Expanded Local Calling Area but inside the LATA.

##### (a) Per Minute of Use

Rate Per Minute of Use	USOC
\$0.05	NA
0.09	NA

##### E. Packages

##### 1. Packages EZ1, EZ1A, EZ2 and EZ2A are available for use with IBS on National ISDN lines. The packages will not be available on Custom ISDN lines or lines associated with MultiServ<sup>®</sup> service or MultiServ<sup>®</sup> PLUS service. A credit will be applied to the monthly billing for customers purchasing IBS via one of these packages. Packages must be ordered exactly as stated in the descriptions of the packages. If any feature listed in the package is deleted or provisioning options are changed, the package credit will no longer apply.

Additional optional features compatible with the package configurations are allowed with the packages. Additional features may be added only on the User Profile already provisioned with features.

The addition of one D-Channel Low Speed Packet is allowed per package.

**Note 1:** Shares DN with any other bearer service on the same User Profile (5ESS/EWSD<sup>®</sup>).

**Note 2:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103. (N)

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

### A42.2 ISDN - Residence Service (IRS) (Cont'd)

#### A42.2.1 General (Cont'd)

- H. IRS will consist of the following components: (Cont'd)
  - Minimum of one and maximum of eight User Profiles per Basic Rate Digital Subscriber Line (DSL) Access Arrangement.
- I. All circuit Switched B channel services must be either flat or measured. Mixing flat and measured B channel services is not allowed on the same premises except as allowed in Section A2. of this Tariff.

#### A42.2.2 Regulations

- A. Customer Premises Equipment (CPE) that is compatible with the ISDN Interface is the responsibility of the user for provisioning.
- B. The Company will be responsible for publishing and maintaining ISDN Interface Specifications.
- C. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Basic Rate Access render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- D. Suspension of service is not allowed.
- E. Service Charges in Section A4. of this Tariff are applicable per Basic Rate DSL access in addition to rates and charges following. (T)
- F. Usage rates, as appropriate, are specified in Section 4103. of this Tariff. (T)
- G. IRS will be available where facilities permit. Combinations of service will be restricted by the limits of the Company central office type and switch load.
- H. IRS is available to full-time educational institutions that are eligible for accreditation by the Southern Association of Colleges and Schools. This service is intended for in-classroom use of computers by students to access information databases, shared educational programs and students in other classrooms. Teachers and researchers may also subscribe to this service for on-campus use. These lines shall not be used to replace existing administrative lines.  
IRS is also available to public libraries including the state library and archives, regional libraries, and public libraries in any county, city or town.
- I. Enhancements (i.e., the performance of protocol conversion) to the basic packet service offered in this section of the Tariff are available on a detariffed basis through vendors who subscribe to the Company's PulseLink® Public Packet Switching Network Service.
- J. Each ISDN Basic Rate DSL Access Arrangement will be counted as one line in determining the application of the Service Charges specified in Section A4. of this Tariff and the End User Charges as specified in the End User Common Access Service section of BellSouth Telecommunications, Inc. FCC No.1, Section 4.
- K. IRS lines served, at the customer's request, from a central office other than the central office the subscriber would normally be served from will require interoffice facilities as provided in this Section of the Tariff per DSL. Airline miles between the serving central offices will be used in the mileage calculation for this rate element.

#### A42.2.3 Definitions

##### B CHANNEL

A bidirectional synchronous channel capable of supporting 64 Kbps of digital transmission.

##### D CHANNEL

A 16 Kbps digital signaling channel also capable of supporting 9.6 Kbps of packet information for the Basic Rate Interface.

##### 64 KBPS CLEAR CHANNEL CAPACITY (CCC)

A B channel connection that provides end-to-end digital connection in which all 64 Kbps of bandwidth are available for customer use.

CUSTOM ISDN - Basic Rate ISDN based on vendor proprietary implementation. Features and services which were developed for Custom BRIs require Customer Premises Equipment (CPE) specifically designed to work on that Central Office switch.

NATIONAL ISDN - Basic Rate ISDN based on industry standards. National ISDN standardizes the signaling and operation of BRI across various Central Office switch types. Features and services which are delivered on a National ISDN BRI can be accessed with CPE built to the National ISDN standards.

##### PACKET SWITCHING

ISDN packet switching service is a data transport service based on CCITT (Consultative Committee on International Telegraph and Telephony) X.25 protocol.

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

##### a. Per minute rates for usage on all circuit switched services (Voice and/or Data) and regulations for RegionServ<sup>4</sup> are defined in A103.2.9 of this Tariff.

(T)

(T)

##### E. Packages

##### 1. Packages EZ1, EZ1A, EZ2 and EZ2A are available for use with IRS on National ISDN lines. The packages will not be available on Custom ISDN lines. Tariff rates as indicated in this section of the tariff apply to all rate elements listed in the package. Packages must be ordered exactly as stated in the descriptions of the packages. If any feature listed in the package is deleted or provisioning options are changed, the package will no longer apply.

Additional optional features compatible with the package configurations are allowed with the packages. Additional features may be added only on the User Profile already provisioned with features.

The addition of one D-Channel Low Speed Packet is allowed per package.

##### 2. Description of Packages

##### a. Package EZ1 - Low Speed DSL, 2 B-channel CSV/CSD - Channel Activation, 2 B-channel CSV/CSD - User Profile, 2 Additional Call Appearances, 1 Conference, Drop, Hold & Transfer, 1 Call Forwarding Variable - Button.

##### b. Package EZ1A - Low Speed DSL, 2 B-channel CSV/CSD - Channel Activation, 2 B-channel CSV/CSD - User Profile, 2 Additional Call Appearances, 1 Conference, Drop Hold, & Transfer, 1 Call Forwarding Variable - Button., Visual Message Waiting, Call Forwarding Busy Line, Call Forwarding Don't Answer. Voice mail service will be allowed with this package.

##### c. Package EZ2 - Low Speed DSL, 2 B-channel CSV/CSD - Channel Activation, 2 B-channel CSV/CSD - User Profile, 2 Additional Call Appearances, 1 Conference, Drop, Hold & Transfer, 1 Call Forwarding Variable - Button., 2 Secondary DN's.

**Note 1:** On-Demand High Speed Packet B channel requires at least one B channel circuit switched voice/data on DSL.

**Note 2:** On-Demand High Speed Packet B channel available only on Integrated Packet Handler in EWSD®.

**Note 3:** Shares DN with any other bearer service on the same user profile (SESS/EWSD®).

**Note 4:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(N)

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

### A42.3 BellSouth® Primary Rate ISDN (Cont'd)

#### A42.3.1 General (Cont'd)

- I. The optional offering of Incoming Call Extension (ICE) provides the capability for BellSouth® Primary Rate ISDN customers to retain serving wire center telephone numbers for incoming analog services when their existing analog services are converted to BellSouth® Primary Rate ISDN. ICE is only available when the BellSouth® Primary Rate ISDN is provided from a central office switch other than the one providing the converting analog services. ICE can also be used to provide additional serving wire center telephone numbers to an existing ICE arrangement. Rates and charges are applicable per telephone number or per path. Customers subscribing to ICE may be required to make CPE software modifications to translate dialed telephone numbers to terminated telephone numbers. Hunting between ICE telephone numbers is not allowed. ICE is only available within the Local Calling Area.
- J. BellSouth® Primary Rate ISDN B-Channel rates for the Voice/Data (Standard) option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate and is offered on a flat rate basis and on a usage sensitive basis with RegionServ<sup>1</sup>.
- K. BellSouth® Primary Rate ISDN B-Channel rates for the Digital Data Only option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate and is offered on a flat rate basis and on a usage sensitive basis with RegionServ<sup>1</sup>. (T)
- L. BellSouth® Primary Rate ISDN B-Channel rates for the Inward Data option are listed in A42.3.4.C. Exchange Access is included as a part of the B-Channel on a flat rate basis only. (T)
- M. The BellSouth® Primary Rate ISDN Inward Data option is characterized by the following:
  1. It is arranged for inward service only. Originating calls will be denied.
  2. It is arranged to terminate analog and digital data calls only.
  3. The number of telephone numbers associated with a BellSouth® Primary Rate ISDN Inward Data option arrangement must be equal to, or less than, the number of BellSouth® Primary Rate ISDN Inward Data Interfaces comprising the arrangement and all numbers must use the same routing unless the customer subscribes to additional numbers as stated in A42.3.4.C.7. This restriction does not apply to Inward Data Extended Reach Service.
  4. Calling Number Delivery, Called Number Delivery, and Hunting are inherent to the service.
- N. Voice calls on the B-Channel may be completed to both ISDN and non-ISDN lines.
- O. Digital Data Transmission on the B-Channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices may be subjected to analog transmission or sub-rated to 56 Kbps.
- P. BellSouth® Primary Rate ISDN Extended Reach Service (ERS) is available only for the Inward Data Option. ERS is designed to "extend the reach" of the Inward Data Option customer from a centrally located metropolitan local calling area into the areas of the LATA which are "non-local" to the metropolitan area. The ERS customer purchases telephone numbers within each desired "non-local" calling area to allow their clients to call them without incurring intraLATA Long Distance Message Telecommunications Service charges.
  1. ERS is offered under two configurations: (1) A Dedicated Route Arrangement, and (2) A Final Route Arrangement. The ERS Dedicated Route Arrangement is only available where the target local calling area(s) have an ISDN equipped central office. It is intended for use where the volume of traffic is sufficient to warrant one or more dedicated DS1 interoffice facilities. The ERS Final Route Arrangement will be utilized where the target local calling area(s) do not have an ISDN equipped central office and/or the volume of traffic is insufficient to justify a dedicated DS1 interoffice facility.
  2. For ERS Dedicated Route Arrangements the customer must purchase ERS Remote Telephone Numbers (RTNs), ERS Primary Rate Interfaces, and ERS B-Channels in the target local calling area(s). The ERS Primary Rate Interfaces and ERS B-Channels are extended to the customer's premises (typically in a centrally located metropolitan area, but in the same LATA as the target local calling area) via ERS Interoffice Channels and a BellSouth® Primary Rate ISDN Access Line or other Company provided transport facility.
  3. For ERS Final Route Arrangements the customer must purchase ERS RTNs in the target local calling area(s). Calls that terminate to these RTNs are switched over intraLATA toll message trunk groups to the customer's local serving central office where they terminate on ERS Final Route Primary Rate Interfaces and ERS Final Route B-Channels, via an ERS Final Telephone Number (FTN). A BellSouth® Primary Rate ISDN Access Line or other Company provided transport facility is required for connection to the customer's local serving central office.

**Note 1:** Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

(N)

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

### A42.3 BellSouth® Primary Rate ISDN (Cont'd)

#### A42.3.2 Regulations (Cont'd)

- R. The BellSouth® Primary Rate ISDN - Digital Data Only option provides for the transmission of data mode calls only. The BellSouth® Primary Rate ISDN - Digital Data Only arrangement will be provisioned with the customer's requested number of Digital Data Only B-channels with no B-channels capable of transmitting voice mode calls in the same arrangement.
- S. The BellSouth® Primary Rate ISDN Inward Data option provides for the transmission of inward analog and digital data calls only.
- T. Regulations in Section A2. of the Tariff prohibiting the mixing of flat and message or flat and measured service do not apply for BellSouth® Primary Rate ISDN.
- U. No usage charges apply for calls within the local calling area for BellSouth® Primary Rate ISDN customers utilizing the Flat Rate BellSouth® Primary Rate ISDN B-Channel. Long Distance Message Telecommunications Service rates as specified in Section A18. apply for intraLATA calls terminated beyond the local calling area.
- V. The following usage regulations will apply for all dialed sent paid local calls for BellSouth Primary Rate ISDN customers utilizing the Usage Sensitive BellSouth Primary Rate ISDN B-Channel:
1. Usage charges will be billed at the usage rates described in **A103.2.9** for RegionServ<sup>1</sup>.
  2. Summarized total usage charges for calls within the Basic and Expanded Local Calling Areas will be reduced by fifty percent prior to the application of the usage allowance. Time/Day discounts described in **A103.2.9** do not apply.
  3. A usage allowance of \$20.00 per activated B-Channel is applicable for all local calls terminating in Bands A.
  4. Total billed usage charges above the allowance will not exceed \$20.00 per activated B-Channel for calls terminating in Band A.
  5. Local calls that are not dialed sent paid, i.e., operator assisted, mechanized calling card, etc., will be billed individually at the same usage rates specified in **A103.2.9** (including Time/Day usage provisions), in addition to any applicable Local Calling Card Service or Operator Assisted Local Call surcharges. Such calls are itemized on the subscriber's billing statement and are billed outside any applicable calling allowance or usage billing reductions for dialed sent paid local calls.
- W. The Next Route Index Feature allows a BellSouth® Primary Rate ISDN Digital Data Only customer to arrange analog calls to overflow to a Voice/Data arrangement in the same switch or allows the customer to overflow analog and digital calls to a Voice/Data arrangement in the same switch. These same capabilities are available to a BellSouth® Primary Rate ISDN Inward Data customer to overflow calls to a Voice/Data arrangement in the same switch. It does not allow Voice/Data or Inward Data calls to overflow to a Digital Data Only arrangement nor does it allow Voice/Data or Digital Data Only calls to overflow to an Inward Data arrangement.
- X. BellSouth® Primary Rate ISDN Digital Data Only Signaling Groups may be configured in one of the following four standard arrangements of call types:
1. Inward Calls: The number of Inward calls accommodated by the Signaling Group will be equal to the number of activated B-channels.
  2. Outward calls: The number of Outward calls accommodated by the Signaling Group will be equal to the number of activated B-channels.
  3. Inward calls and Outward calls: The maximum number of simultaneous calls for each call type is determined by the customer. For each call type, the maximum number of simultaneous calls must be less than or equal to the number of activated B-channels in the Signaling Group.
  4. 2-Way calls: The number of 2-Way calls accommodated by the Signaling Group will be equal to the number of activated B-Channels.
- Y. The Company reserves the right to audit the customer's traffic usage for the Incoming Call Extension feature to insure that simultaneous calls are not occurring on the low use option. If such calls are occurring, the customer will be required to subscribe to the high use option.
- Z. The Service Installation Guarantee as set forth in B2.4.17 of the Private Line Services Tariff applies for BellSouth® Primary Rate ISDN.

Note 1: Measured, Message and RegionServ Rate Services are obsoleted October 30, 2002. Tariff Reference, Section A103.

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

### A42.3 BellSouth® Primary Rate ISDN (Cont'd)

#### A42.3.4 Rates and Charges

- A. A BellSouth® Primary Rate ISDN Access Line is furnished between a serving wire center and the customer's premises. If other tariffed services are used for transport as described in A42.3.1.E, no additional rate applies (Provisioning USOC: 1LD1F).

1. BellSouth® Primary Rate ISDN Access Line, each

	Nonrecurring Charge	Month to Month	24 to 48 Months	49 to 72 Months	USOC
(a) BellSouth® Primary Rate ISDN Access Line, each	\$875.00	\$140.00	\$130.00	\$120.00	1LD1E

- B. Interoffice Channels furnished between central offices. Rates are based on the airline distance between central offices.

1. Interoffice Channel, each channel

(a) Fixed Monthly Rate	125.00	75.00	65.00	60.00	1LN1A
(b) Each airline mile or fraction thereof	-	24.00	22.00	20.00	1LN1B

- C. BellSouth® Primary Rate ISDN will be available in combinations of channels according to the limits of the Company central office type. Customers will choose the most appropriate combinations and will be billed for the services accordingly.

1. BellSouth® Primary Rate ISDN Interface, each

(a) Voice/Data (Standard)	110.00	400.00	375.00	340.00	PR71V
(b) Digital Data Only Option	110.00	400.00	375.00	340.00	PR71D
(c) Inward Data Option	110.00	400.00	375.00	340.00	PR71E
